EXPLANATIONS

| | |
|-----|---|
| [1] | This course is practical, and attendance is mandatory. |
| [2] | Enrollment for the course begins in the Term 4th. Grading will be on a "pass" (P) or "fail" (F) basis. Upon successful completion of summer practice days will be counted. The relevant regulations are outlined in the Department Summer Practice Guidelines. |
| [3] | Enrollment for the course begins in the Term 6th. Grading will be on a "pass" (P) or "fail" (F) basis. Upon successful completion of summer practice days will be counted. The relevant regulations are outlined in the Department Summer Practice Guidelines. |
| [4] | Enrollment for the course begins in the Term 7th. Grading will be on a "pass" (P) or "fail" (F) basis. Upon successful completion of summer practice days will be counted. The relevant regulations are outlined in the Department Summer Practice Guidelines. |
| [5] | Students who were unable to take or failed the Geological Engineering Design-2 course (code 1207801) in the Spring semester of the fourth year, but who are theoretically eligible to graduate at the end of the Fall semester or have only one course left, will be required to take this course in the Fall semester under the Geological Engineering Design-2 course (code 1207708). |
| [6] | In place of the "Non-Technical Elective Course" in previous years' curricula, it has been added as "Common Social Elective Course (CSEC)" in the 2023-2024 curriculum. |
| [7] | Courses given with the AEC code have been reclassified as elective courses starting from the Fall semester of the 2024-2025 academic year. Each of these courses, which have different codes, are administered by a committee composed of assigned members. Students are required to take and successfully complete at least one course from each AEC group. |
| [8] | Students who previously took and failed courses corresponding to those given with the AEC code must take and pass at least one course from the AEC groups starting from the Fall semester of the 2024-2025 academic year. |
